Is the holding under movement restriction for bovine Tuberculosis (TB)* **Yes** **No**

- The holding is not under movement restrictions for any other animal disease or public health reason
- Withdrawal periods have been observed for all veterinary medicines and other treatments administered to the animal(s) while on this holding and previous holdings.
- To the best of my knowledge the animals are not suffering from any disease or condition that may affect the safety of meat derived from them.
- No analysis of samples taken from animals on the holding or other samples has shown that the animals in this consignment may have been exposed to any disease or condition that may affect the safety of meat or to substances likely to result in residues in meat.
- None of the cattle supplied are cloned or are the progeny of cloned cattle.
- Animal feed: All ingredients used in cattle feed used to produce these animals is of plant origin and do not contain any anti-microbial growth promoters.

If the animals do not fulfill all the above statements, tick this box and provide additional information below
